Index / वषिय-सूची

1. App Overview — ऐप क्या करता है
2. License Activation — लाइसेंस कैसे चालू करें
3. TwelveData API Key — फ़्री की कैसे बनाएं
4. App Features — सभी फीचर्स का उपयोग
5. Firebase Setup — MT5 ऑटो-ऑर्डर के लिए
6. FXBridge EA Install — VPS / MT5 सेटअप
7. Placing Orders — ऑर्डर कैसे भेजें
8. Troubleshooting — समस्या समाधान
9. Trading Tips — ट्रेडिंग सलाह

1. App Overview / ऐप क्या करता है

English: ForexDiagnosis analyzes 8 trading pairs (Forex, Gold, Crypto) using multiple indicators and gives you BUY / SELL / HOLD signals with entry, stop-loss, and take-profit levels. It also grades each signal's quality.

हंदी: ForexDiagnosis 8 ट्रेडिंग पेयर (फॉरेक्स, गोल्ड, क्रिप्टो) का विश्लेषण करता है और आपको BUY / SELL / HOLD सिग्नल देता है — साथ में Entry, Stop-Loss, Take-Profit भी। हर सिग्नल की क्वालिटी भी बताता है।

Supported Pairs / उपलब्ध पेयर:

EURUSD, GBPUSD, USDJPY, AUDUSD, NZDUSD
XAUUSD (Gold)
BTCUSD, ETHUSD (Crypto)

2. License Activation / लाइसेंस चालू करना

English: When you first open the app, you'll see a License screen with your Device ID.

हंदी: ऐप पहली बार खोलने पर आपको License स्क्रीन दिखाई देगी जिसमें आपका Device ID होगा।

Steps / स्टेप्स:

1. App khole → apna Device ID note karo (जैसे: A7K2-9XQ4)
2. 'Request License on WhatsApp' button dabao
3. Owner ko Device ID chala jayega → wo aapko License Key bhejega
4. Key ko 'ENTER LICENSE KEY' box me daalo → ACTIVATE dabao
5. App unlock ho jayega ✓

⚠ Ek license sirf EK device pe chalti hai. Doosre phone pe wahi key kaam nahi karegi.

⚠ One license works on ONE device only. Same key won't work on another phone.

3. TwelveData API Key / फ्री की बनाना

English: The app needs a free TwelveData API key to fetch live prices. It's 100% free.

हंदी: ऐप को लाइव प्राइस लाने के लिए एक फ्री TwelveData API की चाहिए। यह बिल्कुल फ्री है।

Steps / स्टेप्स:

1. Browser me kholo: twelvedata.com
2. 'Sign Up' / 'Get Free API Key' dabao
3. Email se free account banao (naam, email, password)
4. Email verify karo (inbox check karo)
5. Login ke baad Dashboard me API Key dikhegi

6. Us key ko copy karo

7. App me → ⚙ API Settings → 1/2 me key paste karo

Free plan me kya milta hai / Free plan gives:

800 API calls per day

8 calls per minute

Forex + Gold + Crypto - sab included

 Tip: Ek analysis me ~9 calls lagti hain. Din me 80+ analysis free me kar sakte ho.

4. App Features / सभी फीचर्स

Feature	Kya karta hai / What it does
 Analyze	Pair ka signal (BUY/SELL/HOLD) + Entry/SL/TP dikhata hai
 Signal Quality	STRONG (80+) / MODERATE (50-79) / WEAK (<50) grade
↘ MARKET /  LIMIT	MARKET = turant entry LIMIT = pullback pe entry
 SL Width	Stop-loss ki width (ATR multiple) - editable
 Lot Size	Trade ka lot (crypto = 0.10, baaki = 0.01)
 Editable E/SL/TP	Entry, SL, TP khud bhi badal sakte ho
 Chart	Live TradingView chart (S/R + Fibonacci)
 Share /  Copy	Signal WhatsApp pe bhejo ya copy karo
✓ Maine Ye Trade Liya	Trade record karo (tracking ke liye)
 Send Order to MT5	Order seedha MT5 me bhejo (EA setup ke baad)
 My Trades	Saare trades + monthly stats
 Stats	Win rate, P/L, quality-wise breakdown
 Check Results	TP/SL hit hua ya nahi - auto check
 Backup / Import	Trade history JSON me save/restore

5. Firebase Setup / फायरबेस सेटअप

English: To send orders from app to MT5 automatically, you need Firebase (free). This is a one-time setup. Only needed for auto-trading.

हंदी: ऐप से MT5 में ऑटोमैटिक ऑर्डर भेजने के लिए Firebase (फ्री) चाहिए। यह एक बार का सेटअप है। सिर्फ ऑटो-ट्रेडिंग के लिए।

Step 1: Project banao

1. Kholo: console.firebase.google.com
2. Google account se login karo
3. 'Create a project' → naam do (jaise: myforex) → Create
4. Google Analytics: OFF kar sakte ho

Step 2: Realtime Database banao

1. Left menu → 'Build' → 'Realtime Database'
2. 'Create Database' dabao
3. Location: Singapore (India ke paas) select karo
4. 'Start in test mode' select karo → Enable

Step 3: Rules set karo

'Rules' tab me ye paste karo aur Publish dabao:

```
{
  "rules": {
    "fxbridge": {
      ".read": true,
      ".write": true
    }
  }
}
```

Step 4: URL copy karo

'Data' tab me upar aapka URL dikhega, ise copy karo:

```
https://YOURPROJECT-default-rtdb.
asia-southeast1.firebaseio.com/app
```

Ye URL App me (⚙ Settings → 2/2) aur EA me daalna hai.

6. FXBridge EA Install / EA सेटअप

English: FXBridge EA runs on MT5 (on a VPS or your PC) and places orders that the app sends. MT5 must stay running.

हिंदी: FXBridge EA आपके MT5 (VPS या PC) पर चलता है और ऐप से आए ऑर्डर लगाता है। MT5 चालू रहना चाहिए।

Requirements / ज़रूरी चीज़ें:

- MT5 (Exness ya koi broker)
- VPS (24/7 chalne ke liye) ya PC
- FXBridge EA file (.mq5) - app se download

Step 1: EA file MT5 me daalo

1. MT5 → File → Open Data Folder
2. MQL5 → Experts folder khole
3. FXBridgeEA.mq5 file yahan paste karo

Step 2: Compile karo

1. MT5 me MetaEditor khole (F4 ya IDE button)
2. FXBridgeEA.mq5 khole → Compile (F7) dabao
3. '0 errors' aana chahiye

Step 3: WebRequest allow karo (ZAROORI)

1. MT5 → Tools → Options → Expert Advisors
2. ☒ 'Allow WebRequest for listed URL' tick karo
3. Apna Firebase URL add karo (jo copy kiya tha)
4. OK dabao

Step 4: EA chart pe lagao

1. Koi bhi chart khole (jaise XAUUSDm)
2. Navigator se FXBridgeEA ko chart pe drag karo
3. Settings check karo:

```
FirestoreURL: (pehle se bhara hoga)
SymbolSuffix: m (Exness ke liye)
EnableTrading: false (PEHLE TEST!)
MaxLots: 0.5 (safety)
```

4. Algo Trading button ON karo (toolbar me)
5. Chart pe EA ka naam + 😊 (smiley) dikhna chahiye

Step 5: Test karo

1. App se koi order bhejo (EnableTrading=false hai)

2. MT5 → Experts tab me dekho:

```
"TEST MODE - would place: XAUUSDm ..."
```

3. Ye dikha → sab connected! Ab EnableTrading = true karo

4. Real orders place hone lagenge ✓

7. Placing Orders / ऑर्डर भेजना

Order Types / ऑर्डर के प्रकार:

Type	Kab lagta hai / When
↘ MARKET	Turant current price pe (instant fill)
📏 LIMIT	Pullback pe (better price ka wait)

How to send / कैसे भेजें:

1. Pair analyze karo → signal dekho
2. MARKET ya LIMIT choose karo
3. Lot size check karo (crypto = 0.10)
4. Entry/SL/TP dekho (chahe to edit karo)
5. '📏' Send Order to MT5' dabao → confirm karo
6. ~10 second me MT5 me order lag jayega ✓

⚠ EA khud lot/price ko broker ke rules ke hisaab se adjust kar deta hai.

⚠ EA automatically adjusts lot/price per broker rules.

8. Troubleshooting / समस्या समाधान

Problem	Solution / हल
Data load nahi ho raha	API key check karo (⚙ Settings). Free limit (800/day) khatam to kal try karo.
Order MT5 me nahi aaya	1) EnableTrading=true? 2) Algo Trading ON? 3) Firebase URL sahi? 4) WebRequest allowed?
WebRequest error 4014	Firebase URL galat hai ya WebRequest list me nahi. Dono jagah SAME URL daalo.
invalid volume	Lot size galat. Crypto ke liye 0.10 minimum.
invalid price	EA v2.16+ use karo (auto-adjust karta hai).
License key galat	Device ID sahi bheja? Owner se dobara key lo.
App update nahi dikha	App band karke dobara khole, ya cache clear karo.

9. Trading Tips / ट्रेडिंग सलाह

English:

- Only take STRONG signals (80+) for best win rate
- Trade during London/New York session (5:30-9:30 PM IST) for best moves
- Avoid trading before high-impact news (NFP, FOMC)
- Record every trade and check Stats after 30 trades
- Take regular backups (Stats → Export)

हिंदी:

- सिर्फ STRONG सिग्नल (80+) लो - बेहतर win rate के लिए
- London/New York सेशन (शाम 5:30-9:30 IST) में ट्रेड करो
- बड़ी न्यूज़ (NFP, FOMC) से पहले ट्रेड मत करो
- हर ट्रेड record करो, 30 ट्रेड बाद Stats देखो
- नियमिति backup लो (Stats → Export)
